Frontend Developer

## SUMMARY

Motivated and detail-oriented Frontend Developer with a growing foundation in web development, particularly in HTML, CSS, and JavaScript. Passionate about building intuitive and responsive user interfaces while continuously learning modern frontend practices. Background in applied biology and technical training, bringing strong communication, time management, and problem-solving skills to collaborative development environments. Experienced in creating learning resources and supporting peers, with a commitment to developing clean, user-focused web applications and evolving into a well-rounded frontend developer.

## SKILLS

- Foundational Knowledge of Frontend Development (HTML, CSS, JavaScript)
- Hands-on Experience with JavaScript for Interactive Web Features
- Familiarity with Version Control using Git and GitHub
- Strong Problem-Solving and Debugging Skills
- Eagerness to Learn and Apply Modern Web Development Practices
- Effective Communication and Collaboration in Team Environments

## EXPERIENCE

### Frontend Developer Intern at EndGlitch,

Feb 2025 – Present

- Assisted in building and styling responsive web pages using HTML, CSS, and JavaScript.
- Collaborated with senior developers to implement interactive UI components and debug issues.
- Actively participated in code reviews and team discussions to enhance coding practices and design consistency.
- Created and maintained documentation for internal learning resources to support other beginner developers.
- Continuously explored modern frontend tools and best practices to strengthen development skills and project contributions.

### Technical Trainer at Kabete National Polytechnic,

September 2023 - December 2023

- Established and implemented learning objectives that supported institutional goals and improved overall training effectiveness.
- Delivered personalized coaching sessions for trainees requiring additional support, employing adaptive learning strategies to enhance individual development and understanding
- Designed interactive and engaging training materials, utilizing technical tools to support various learning styles and maximize knowledge retention.

## EDUCATION

### Her Tech Trails — Front-End Fundamentals Fellowship

April - June, 2025

- Re-implemented popular layouts (Flexbox CSS Grid) and converted them to mobile-first versions
- Introduced to version control with Git/GitHub and agile task tracking
- Delivered a capstone portfolio site using TailwindCSS, Google Fonts, and SVG icons

### Africa Agility — Front-End Web Development Bootcamp

January - April, 2025

- Built responsive web pages with HTML5, CSS3, and modern JavaScript (ES6+)
- Applied Tailwind CSS utility classes to prototype UI components 30
- Practised typography, colour theory, and web-safe font pairing for accessible design
- Collaborated in a large, remote and distributed team to design and build a job portal, increasing Lighthouse accessibility score from 71 to 93

### Diploma in Education, Applied Biology

Kenya School of TVET, Nairobi Kenya

September 2022 - December 2023

- Recipient of the Credit Academic Achievement Award.
- Completed coursework in educational theory, curriculum development, and applied biology teaching methodologies.

## CERTIFICATIONS PROFESSIONAL DEVELOPMENT

- Frontend Web Development, African Girls in Tech Cohort 8, Africa Agility .
- Certification in Interactive Learning Facilitation, Kenya School of TVET.
- Technical Proficiency Certification, Laboratory Standards in Specimen Management, National Museum of Kenya.
